
RICHMOND MINERALS INC.
UNAUDITED CONDENSED CONSOLIDATED INTERIM
FINANCIAL STATEMENTS
PERIODS ENDED AUGUST 31, 2014 AND 2013

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these unaudited interim condensed consolidated financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

Consolidated Statements of Financial Position

(In Canadian dollars)

As at:	Note	Aug 31, 2014	May 31, 2014
<u>ASSETS</u>			
Current			
Cash and equivalents		\$152,819	\$262,485
Cash held for future exploration	5	25,254	88,561
Marketable securities	6	88,813	93,600
Interest and sundry receivables		12,810	37,996
Deposits and prepaid expenses		351	5,000
		\$280,047	\$487,642
Non-current			
Property, plant and equipment		\$8,716	\$9,174
Mineral Properties	7	325,244	265,636

Consolidated Statements of Comprehensive Loss

(In Canadian dollars)

		For the Three months ended	
	Note	Aug 31, 2014	Aug 31, 2013
Expenses			
Management fees	11	\$8,800	-
Professional fees		15,930	1,000
Regulatory fees		6,015	1,430
Administrative and general		16,439	6,021
Interest and Bank charges	11	2,546	90
Amortization expense		459	563
Fair Value Adjustment of marketable securities	9	639	(425)
		\$50,477	\$8,679
Gain on sale of financial instruments		(\$12,539)	\$0
Net loss before income tax		\$37,939	\$8,679
Deferred income tax		(3,165)	-
Income tax expense		(15,827)	-
Net Loss and comprehensive loss		\$18,946	\$8,679
Income/ (Loss) per share			
Basic		(\$0.001)	(\$0.000)
Diluted		(\$0.001)	(\$0.000)
Weighted average number of shares outstanding			
Basic	3	29,747,422	81,509,239
Diluted	3	29,747,422	81,509,239

Accompanying notes form an integral part of these unaudited condensed consolidated interim financial statements.

Consolidated Statements of Cash Flows

(In Canadian dollars)

	For the three months ended	
	Aug 31, 2014	Aug 31, 2013
Cash provided by (used in):		
Operating activities:		
Loss for the year	(\$18,946)	(\$8,679)
Add (deduct): Items not requiring an outlay of cash		
Depreciation	459	563
Adjustment of fair value of marketable securities	639	(425)
Gain on sale of marketable securities	(12,539)	-
Changes in non - cash operating working capital:		
Deposits and prepaid expenses	4,649	-
Amounts receivable	25,186	(2,332)
Deferred tax liability	(18,992)	-
Accounts payable	(309,157)	22,758
	(\$328,701)	\$11,885
Investing activities:		
Purchase of marketable securities	(\$206,505)	\$0
Expenditures on mining properties	(59,608)	(9,615)
Proceeds on sale of marketable securities	223,191	-
	(\$42,922)	(\$9,615)
Financing activities:		
Issuance of capital stock	\$198,650	\$0
Cash held for future exploration	63,307	-
	\$261,957	\$0
Increase (decrease) in cash and cash equivalents	(\$109,666)	\$2,270
Cash and cash equivalents, beginning of period	262,485	1,459
Cash and cash equivalents, end of period	\$152,819	\$3,729
Supplemental cash flow information:		
Non cash flow investing and financing activities:		
Marketable securities received on earn-in of mining claims	\$0	\$0
Common shares issued for exploration properties	\$0	\$0
Cash paid for:		
Income taxes	\$0	\$0
Interest	\$0	\$0

Issued on debt settlement	2,837,856	\$198,650	-	-	198,650	-	198,650
Balance, August 31, 2014	31,629,044	\$15,408,003	\$74,600	\$610,660	\$16,093,262	(\$15,661,515)	\$431,748

Accompanying notes form an integral part of these unaudited condensed consolidated interim financial statements.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

1. Nature of Operations and Going Concern

Richmond Minerals Inc. (the "Company") was incorporated under the laws of the Province of Ontario and is listed on the TSX Venture Exchange under symbol (RMD). The Company's head office and primary place of business is located at 133 Richmond Street West, Suite 403, Toronto, ON, CA, M5H 2L3.

These unaudited condensed consolidated interim financial statements of the Company were authorized for issue in accordance with a resolution of the directors on October 30th, 2014.

The Company is engaged in base and precious metal mining and related activities, including exploration and development in Northern Ontario and Quebec. The Company, directly and through joint ventures, is in the process of exploring its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable.

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") applicable to a going concern, under which material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern must be disclosed. As at August 31, 2014, the Company has not achieved profitable operations and continues to be dependent upon its ability to obtain sufficient working capital from external financing to meet the Company's liabilities as they become payable. The Company has a working capital surplus at period end in the amount of \$97,788 and has accumulated losses since inception in the amount of \$15,661,515. The Company's ability to continue as a going concern and to realize the carrying value of its assets and discharge its liabilities is dependent on the discovery of economically recoverable mineral reserves, the ability of the Company to obtain necessary financing to fund its operations, and the future production or proceeds from developed properties. These unaudited condensed consolidated interim financial statements do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and, therefore, be required to realize its assets and liquidate its liabilities and commitments in other than the normal course of operations, and at amounts different from those in these unaudited condensed consolidated interim financial statements. These adjustments could be material.

2. Statement of Compliance

These unaudited condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting ("IAS 34") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements should be read in conjunction with the Company's most recently issued Annual Report which includes information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's significant accounting policies were presented in Note 3 of the consolidated financial statements for the year ended May 31, 2014, and have been consistently applied in the preparation of these interim financial statements.

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis except for certain financial assets which are recorded at fair value. In addition, these unaudited condensed consolidated interim financial statements have been prepared using the accrual basis of accounting except for cash flow information.

3. Significant Accounting Policies

The below-described accounting policies have been applied to all of the periods presented in these unaudited condensed consolidated interim financial statements. These policies are the published IFRS accounting policies and the current issued and adopted interpretations applied to fiscal years beginning on or after January 1, 2014.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3 – Significant Accounting Policies Continued

(i) Basis of Preparation

The condensed consolidated interim financial statements are presented in accordance with IAS 1, *Presentation of Financial Statements*.

The Company has elected to present the 'Statement of Comprehensive Loss' as a single financial statement with its Statement of Income, titled 'Consolidated Statement of Comprehensive Loss'.

(ii) Basis of Consolidation

The condensed consolidated interim financial statements financial statements incorporate the Company's accounts and proportionally consolidated interest in the Fort Chimo joint venture. The Company does not have any subsidiaries.

(iii) Foreign Currency

The Company's presentation currency is the Canadian Dollar ("CAD"). The functional currency of the Company and the Fort Chimo Joint Venture is the Canadian Dollar.

Monetary assets and liabilities that are denominated in a currency other than the Company's functional currency are translated using the exchange rate in effect on the reporting date, whereas non-monetary items are translated using historical exchange rates. Expenses, if any, are translated at the exchange rate in effect on the transaction date. Exchange differences, if any, are recognized in profit or loss in the period in which they arise in other gains/losses.

(iv) Cash and Cash Equivalents

The cash and cash equivalents item includes cash on hand and short-term investments, if any, with maturities upon acquisition of generally three months or less or that are redeemable at any time at full value and for which the risk of a change in value is not significant.

(v) Interest Income

Interest income from financial assets is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on the basis of time that has passed, by reference to the principal outstanding and at the effective interest rate applicable.

(vi) Share-based Payments

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based payment transactions are set out in Note 8(ii) below.

The fair value determined at the grant date of the equity-settled share-based payments is expensed to the Consolidated Statement of Comprehensive Loss over the vesting period, if any, which is the period during which the employee becomes unconditionally entitled to equity instruments. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest, if any.

Equity-settled share-based payment transactions with parties other than employees, if any, are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

Share-based payments for goods and services are expensed to the consolidated Statement of Comprehensive Loss when they occur over the vesting period, if they do not vest immediately.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3 – Significant Accounting Policies Continued

(vii) Income Taxes and Deferred Taxes

The income tax expense or benefit for the period consists of two components: current and deferred. Income tax expense or benefit is recognized in the consolidated Statement of Comprehensive Loss except to the extent it relates to a business combination or items recognized directly in equity.

Current tax is the expected tax payable or receivable on the taxable profit or loss for the year. Current tax is calculated using tax rates and laws that were enacted or substantively enacted at the balance sheet date in each of the jurisdictions and includes any adjustments for taxes payable or recovery in respect of prior periods.

Taxable profit or loss differs from profit or loss as reported in the consolidated Statement of Comprehensive Loss because of items of income or expense that are taxable or deductible in other years, and items that are never taxable or deductible. The Company's liability or recovery for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. To the extent that the Company does not consider it to be probable that taxable profits will be available against which deductible temporary differences can be utilized, it provides a valuation allowance against the excess.

Deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred taxes are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly into equity, in which case, the current and deferred taxes are also recognized in other comprehensive income or directly in equity respectively.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3 – Significant Accounting Policies Continued

(viii) Mineral Properties and Exploration and Evaluation (“E&E”) Costs

Exploration and evaluation (E&E) costs are those costs required to find a mineral property and determine commercial viability. E&E costs include costs to establish an initial mineral resource and determine whether inferred mineral resources can be upgraded to measured and indicated mineral resources and whether measured and indicated mineral resources can be converted to proven and probable reserves.

Exploration and evaluation costs consist of:

- gathering exploration data through topographical and geological studies;
- exploratory drilling, trenching and sampling;
- determining the volume and grade of the resource;
- test work on geology, metallurgy, mining, geotechnical and environmental; and
- conducting engineering, marketing and financial studies.

Project costs in relation to these activities are capitalized as Exploration and Evaluation assets until such time as the Company expects that the decision is made to develop a mine to extract the mineral reserves within a reasonable period. Costs incurred before the Company has obtained the legal rights to explore an area are recognized in the income statement. Once the decision to develop the mine is made, and subject to an impairment analysis, capitalized exploration and evaluation costs are transferred to capitalized costs within property, plant and equipment or intangible assets, as appropriate. The decision to develop a mine may be impacted by management’s assessment of legal, environmental, social and governmental factors.

E&E assets are recorded and measured at initial recognition at cost and are assessed for impairment when facts and circumstances suggest that the carrying amount may exceed its recoverable amount of the asset.

(ix) Property and Equipment

Property and equipment are recorded and measured at initial recognition at cost. Amortization is provided on items of property and equipment so as to write off their carrying value over their expected useful economic lives. Amortization is calculated at 20% declining balance.

(x) Impairment of Non-financial Assets Other than Goodwill

The carrying value of the Company’s capitalized E&E assets is assessed for impairment when indicators of such impairment exist. Plant and equipment and intangible assets are assessed for impairment at the end of each reporting period. If any indication of impairment exists, an estimate of the asset’s recoverable amount is calculated to determine the extent of the impairment loss, if any. The recoverable amount is determined as the higher of the fair value less costs to sell for the asset and the asset’s value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

Impairment is determined on an asset by asset basis, whenever possible. If it is not possible to determine impairment on an individual asset basis, then impairment can be considered on the basis of a cash generating unit (“CGU”). CGUs represent the lowest level for which there are separately identifiable cash inflows that are largely independent of the cash flows from other assets or Company’s other group of assets. The Company has determined that it operates one CGU.

If the carrying amount of the asset exceeds its recoverable amount, the asset is impaired and an impairment loss is charged immediately to the consolidated Statement of Comprehensive Loss so as to reduce the carrying amount to its recoverable amount. Impairment losses related to continuing operations are recognized in the Statement of Comprehensive Loss in those expense categories consistent with the function of the impaired asset.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3(x) – Impairment of Non-Financial Assets Other than Goodwill Continued

For assets excluding goodwill and indefinite life intangibles, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company makes an estimate of the recoverable amount.

A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If this is the case, the carrying amount of the asset is increased to its recoverable amount. The increased amount cannot exceed the carrying amount that would have been determined, net of depreciation/amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the income statement. Impairment losses recognized in relation to goodwill or indefinite life intangibles are not reversed for subsequent increases in its recoverable amount.

(xi) Financial Instruments

Financial instruments are classified into one of the following four categories: loans and receivables; fair value through profit or loss; held-to-maturity; and available-for-sale. Financial assets are initially measured at fair value. Subsequent measurement and recognition of the changes in fair value of financial instruments depends upon their initial classifications, as follows:

- Financial assets and financial liabilities at fair value through profit and loss include financial assets and financial liabilities that are held for trading or designated upon initial recognition as at fair value through profit and loss. These financial instruments are measured at fair value with changes in fair values recognized in the consolidated Statement of Comprehensive Loss.
- Financial assets classified as available-for-sale are measured at fair value, with changes in fair values recognized as Other Comprehensive Income ("OCI") in the Statement of Comprehensive Loss, except when there is objective evidence that the asset is impaired, at which point the cumulative loss is recognized within the consolidated Statement of Comprehensive Loss.
- Financial assets classified as held-to-maturity and loans and receivables are measured subsequent to initial recognition at amortized cost using the effective interest method.
- Financial liabilities, other than financial liabilities classified as fair value through profit and loss, are measured in subsequent periods at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or where appropriate, a short period, to the net carrying amount on initial recognition.

The Company measures its financial assets and financial liabilities initially at its fair value plus, in the case of a financial asset or financial liability not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The Company has classified its financial instruments as follows:

Asset/ Liability	Classification	Measurement
Amounts receivable	Loans and receivables	Amortized cost
Cash and cash equivalents	Fair value through profit and loss	Fair value
Marketable securities	Fair value through profit or loss	Fair Value
Accounts payable and accrued liabilities	Other liabilities	Amortized cost
Loan Payable	Other liabilities	Amortized cost

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3 (xi) – Financial Instruments Continued

The Company had no held-to-maturity or available-for-sale financial instruments as at August 31, 2014 and May 31, 2014.

At the end of each reporting period, the Company assesses whether there is objective evidence that a financial asset is impaired. Impairments are measured as the excess of the carrying amount over the fair value and are recognized in the income statement.

The market values of investments are determined based on the closing prices reported on recognized securities exchanges and over-the-counter markets. Such individual market values do not necessarily represent the realizable value of the total holding of any security, which may be more or less than that indicated by market quotations.

The fair values of the Company's cash and cash equivalents, amounts receivable and accounts payable approximate their carrying values because of the immediate or short-term to maturity of these financial instruments.

(xii) Fair Value Hierarchy

The Company classifies financial instruments recognized at fair value in accordance with a fair value hierarchy that prioritizes the inputs to valuation technique used to measure fair value as per IFRS 7. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability; and
- Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

(xiii) Provisions

Provisions are recognized when the Company has a present obligation, legal or constructive, as a result of a past event, if it is probable that the Company will be required to settle the obligation, and if a reliable estimate of the obligation amount can be made.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties related to the obligation. If the effect of the time value of money is material, the provisions are measured at their present value.

The Company does not have any provisions as of the date of this report.

(xiv) Loss per share

Basic earnings per share is calculated by dividing earnings attributable to common shares divided by the weighted average number of shares outstanding during the period.

Diluted earnings per share is calculated using the denominator of the basic calculation described above adjusted to include the potentially dilutive effect of outstanding stock options and warrants. The denominator is increased by the total number of additional common shares that would have been issued by the Company assuming exercise of all stock options and warrants with exercise prices below the average market price for the year.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3(xiv) – Loss per share Continued

Shares issuable on exercise of stock options and warrants totaling 9,050,321 on August 31, 2014 (9,225,321 in May 31, 2014) was not included in the computation of diluted loss per share because the effect would have been anti-dilutive.

(xv) Government grants

Government grants related to assets, including investment tax credits, are recognized in the consolidated statement of financial position as a deduction from the carrying amount of the related asset. They are then recognized in profit or loss over the useful life of the depreciable asset that the grants were used to acquire, as a deduction from the depreciation expense.

Other government grants are recognized in profit or loss as a deduction from the related expense.

(xvi) Flow-through shares

The Company raises equity through the issuance of flow-through shares. Under this arrangement, shares are issued which transfer the tax deductibility of mineral property exploration expenditures to investors. The Corporation allocates the proceeds from the issuance of these shares between the offering of shares and the sale of tax benefits. The allocation is made based on the difference between the quoted price of the shares and the amount the investor pays for the shares. A deferred flow through premium liability is recognized for the difference. The liability is reversed pro-rata as expenditures are made and are recorded in the statement of loss and comprehensive loss. The spending also gives rise to a deferred tax timing difference between the carrying value and tax value of the qualifying expenditure.

Proceeds received from the issuance of flow-through shares are restricted to be used only for Canadian resource property exploration expenditures within a maximum period.

(xvii) Contingent liabilities and contingent assets

Contingent liabilities and contingent assets are unlikely possible obligations or assets resulting from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent assets and contingent liabilities, if any, are disclosed in the notes under the “Commitments and Contingencies” heading.

(xviii) Restoration, rehabilitation and environmental obligations

A legal or constructive obligation to incur restoration, rehabilitation and environmental costs may arise when environmental disturbance is caused by the exploration, development or ongoing production of a mineral property interest. Such costs arising from the decommissioning of plant and other site preparation work, discounted to their net present value, are provided for, as soon as the obligation to incur such costs arises.

Discount rates using a pretax rate that reflects the time value of money are used to calculate the net present value. These costs are charged against profit or loss over the economic life of the related asset, through amortization using either a unit-of-production or the straight-line method as appropriate.

The related liability is adjusted for each period for the unwinding of the discount rate and for changes to the current market-based discount rate, amount or timing of the underlying cash flows needed to settle the obligation. Costs for restoration of subsequent site damage that is created on an ongoing basis during production are provided for at their net present values and charged against profits as extraction progresses.

The Corporation has no material restoration, rehabilitation and environmental costs as at August 31, 2014 and May 31, 2014 as the disturbance to date is minimal.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 3 – Significant Accounting Policies Continued

(xix) Accounting judgments and sources of estimation uncertainty

In preparing unaudited condensed consolidated interim financial statements in accordance with IFRS, management must exercise judgment when applying accounting policies and relies on assumptions and estimates that affect the amounts of the assets, liabilities and expenses reported in these unaudited condensed consolidated interim financial statements and on the contingent liability and contingent asset information provided. The actual results of items subject to assumptions and estimates may differ from these assumptions and estimates. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are discussed below.

a) Fair Value of Financial Instruments

The estimated fair value of financial assets and liabilities, by their very nature, are subject to measurement uncertainty.

b) Share-based payment transactions

The Company measures the cost of share-based payment transactions with employees by reference to the fair value of the equity instruments. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determining and making assumptions about the most appropriate inputs to the valuation model including the expected life, volatility and dividend yield of the share option. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in note 8(ii).

c) Taxes

Provisions for taxes are made using the best estimate of the amount expected to be paid based on a qualitative assessment of all relevant factors. The Company reviews the adequacy of these provisions at the end of the reporting period. However, it is possible that at some future date an additional liability could result from audits by taxing authorities. Where the final outcome of these tax-related matters is different from the amounts that were initially recorded, such differences will affect the tax provisions in the period in which such determination is made.

d) Mineral properties

The recoverability of amounts shown for exploration and evaluation assets is dependent on the discovery of economical reserves, the ability of the Company to obtain financing to complete development of the properties and on future production or proceeds of disposition.

The determination of when an exploration asset moves from the exploration stage to the development stage is also subject to management judgement.

e) Restoration rehabilitation and environmental obligations

Management's assumption of no material restoration, rehabilitation and environmental obligations is based on facts and circumstances, which may be open to interpretation that existed during the period.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

4. Accounting Pronouncements

(i) Accounting standards adopted during the year

Effective June 1, 2013, the Company adopted the following new accounting standards and interpretations:

- IFRS 11 Joint Arrangements, which applies to accounting for interests in joint arrangements where there is joint control. There is no material impact to the Company from the adoption of this standard.
- IFRS 12 Disclosure of Interests in Other Entities, which includes disclosure requirements about subsidiaries, joint ventures and associates, as well as unconsolidated structured entities and replaces existing disclosure requirements. There is no material impact to the Company from the adoption of this standard.
- IFRS 13 Fair Value Measurement. Upon adoption, the Company utilizes a single framework for measuring fair value while requiring enhanced disclosures when fair value is applied. There is no material impact to the Company from the adoption of this standard.
- IAS 28 (2011) Investments in Associates. As a consequence of the issuance of IFRS 10 Consolidated Financial Statements, IFRS 11 and IFRS 12, IAS 28 has been amended and provides the accounting and sets out the requirements for the application of the equity method. This standard will be applied by the Company when there is joint control or significant influence over an investee. There is no material impact to the Company from the adoption of this standard.

(ii) Accounting standards issued for adoption in future period

The following standards have been issued but are not yet effective. The Company is assessing the impact of these new standards, but does not expect them to have a significant impact on the unaudited condensed consolidated interim financial statements.

- IFRS 9 Financial Instruments. The IASB has postponed indefinitely the mandatory adoption of IFRS 9 Financial Instruments, which addresses classification and measurement of financial instruments and replaces the multiple category and measurement models in IAS 39 Financial Instruments - Recognition and Measurement for debt instruments with a new mixed measurement model having only two categories: amortized cost and fair value through profit or loss (FVTPL). IFRS 9 also replaces the models for measuring equity instruments, and such instruments are either recognized at FVTPL or at fair value through other comprehensive income. The Company has not assessed the impact of the standard or determined whether it will adopt the standard early.
- IAS 32 - Financial Instruments: Presentation. IAS 32 provides clarification on the application of offsetting rules. These amendments are effective for annual periods beginning on or after January 1, 2014.
- IAS 36 - Impairment of Assets. IAS 36 requiring disclosure of the recoverable amount of an asset or cash generating unit, and the basis for the determination of fair value less costs of disposal, when an impairment loss is recognized or when an impairment loss is subsequently reversed. These amendments are effective for annual periods beginning on or after January 1, 2014. The Corporation does not expect the amendments to have impact on its unaudited condensed consolidated interim financial statements.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

5. Cash held for future exploration

During the quarter ended August 31, 2014, the Company completed flow-through financings totaling \$0 (year ended May 31, 2014 - \$115,000). Of this amount the Company had spent a total of \$63,307 on Canadian Exploration Expenditures ("CEE") in the current quarter (year ended May 31, 2014 - \$26,439) leaving a balance of \$25,254 to be spent on CEE.

6. Marketable securities

At August 31, 2014 the Company had an investment in the following public company marketable securities which have been classified as Fair Value through Profit and Loss ("FVTPL").

	# shares	Fair Value
Fort Chimo Mining/Mag Copper	40,000	\$600
Bonavista Energy Corp	5,000	74,100
Probe Mines Ltd	4,900	11,613
Vendome Resources	5,000	200
Surrey Capital	115,000	2,300
		<u>\$88,813</u>

During the current period, a loss in the amount of \$639 was recognized on the adjustment of FVTPL financial instruments to market.

7. Mineral Properties

The following is a summary of the Company's exploration and evaluation properties:

	Aug 31, 2014	May 31, 2014
Opening balance	\$265,636	\$286,967
Current period deferred expenditures	59,608	31,059
Shares issued for mining claims	-	15,000
Mining duty tax recovery	-	(67,390)
Balance end of period	<u>\$325,244</u>	<u>\$265,636</u>

	Aug 31, 2014	May 31, 2014
Swayze Area, Porcupine Mining (a)	\$95,026	\$35,418
Lac Colombet, Quebec (b)	105,649	105,649
Fort Chimo, net of recoveries (c)	416,133	416,133
Triple Lake	1	1
Mining duty tax recovery	(291,565)	(291,565)
	<u>\$325,244</u>	<u>\$265,636</u>

- (a) The Corporation holds a 100% interest in a group of 119 contiguous unpatented mining claims and a 50% interest in 35 claims located in the Swayze Area, Porcupine Mining Division, Ontario

On October 29, 2012 the Corporation staked claims (44 units) in Raney Township in northern Ontario. These 44 units are contiguous with the west boundary of the Company's Swayze Property. Richmond management believes these claims to be prospective for gold mineralization.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 7(a) – Mineral Properties Continued

On January 21, 2013, litigation began pertaining to the Certificates of Pending Proceeding in which Richmond is a defendant. The Plaintiff's action is a tracing claim alleging the diversion of the Plaintiff's funds from an unrelated exploration program to fund work on the Swayze Property. The plaintiff seeks title to the Swayze Property and financial compensation from Richmond. The litigation concluded at the end of June 2013.

On February 3, 2014 a judgement was reached with the Swayze litigation. The Ontario Superior Court dismissed the plaintiff's claim of an alleged interest in the Swayze Mining Claims. Accordingly, the Certificates of Pending Proceedings and Certificates of Interest registered by the plaintiff against title to the Swayze Mining Claims were vacated and discharged from title to those Mining claims.

On February 28, 2014 the Plaintiff in the Swayze Property litigation filed an appeal asking that the Judgement announced in favour of the Company on February 3, 2014 be set aside and a new Judgement be granted in favour of the Plaintiffs. The appeal is pending.

- (b) The Corporation has a 100% interest, subject to a 2% net smelter return royalty, in 86 mining claims (the "Lac Colombet" property) located in the north eastern portion of the Province of Quebec, near the Labrador border.

On January 15, 2013 the Corporation has entered into an agreement with ARC EXPLORATION INC. to sell 100% interest of this property for \$5,000 and 2,000,000 of common shares of the seller. The Corporation has the right to terminate the agreement if the Stock Exchange fails to accept the proposed arrangement as the qualifying transaction. If such an event occurs, the agreement may be terminated and the Company will return the common shares of purchaser, and the purchaser will forfeit the deposit of \$5,000.

In August 2013 the agreement was amended to revise the expiry date of the agreement to September 1, 2014 with all other terms and conditions remaining the same. The deposit received is recorded in accounts payable and accrued liabilities. The company has verbally agreed to extend the ARC agreement until September 30, 2014.

- (c) On February 12, 2010 the Corporation announced the execution of a letter agreement with Mag Copper Inc. (formerly Fort Chimo Minerals Inc. ("MagCopper")) whereby, pursuant to an Option Agreement dated May 6, 2006 as amended by letter agreement dated October 3, 2008, the Corporation has earned a 50% undivided right, title and interest in the Grenville Project properties consisting of three separate properties in the Grenville geological region of the Province of Quebec (the "Agreement"). The Agreement was reached as a result of Richmond's completion of a \$2,000,000 exploration expenditure requirement and the issue of 1,000,000 common shares to MagCopper. At August 31, 2014 112 claims were in good standing.

On February 23, 2010, the Corporation received 40,000 common shares of MagCopper (after a 5 to 1 consolidation) in settlement of certain shared expenses in excess of the \$2,000,000 exploration expenditure requirement to earn the 50% interest in the joint venture. One of the directors and officers of the Corporation was also a director of MagCopper Inc. until September 9, 2011.

On November 14, 2012 the Company announced that it had signed a letter of intent (LOI) with Surrey Capital Corporation. Under the terms of the LOI, Richmond and its joint venture partner Mag Copper Inc. have optioned a 51% interest in the Halle Property to Surrey for a cash payment of \$20,000 and 200,000 common shares as well as investing \$200,000 on the property via an exploration program and on an additional payment to the joint venture partners of 400,000 common shares of the Corporation on or before the first anniversary of the agreement.

On November 14, 2012 the Corporation and Mag Copper Ltd. collectively announced that they have entered into a Letter of Intent ("LOI") effective October 18, 2012 with Surrey Capital Corp. Under the terms of the LOI, the Corporation and Mag Copper Ltd. have optioned to the Lessee a 51% interest in the Halle Property for a

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 7 (c) – Mineral Properties Continued

cash payment of \$20,000 and 200,000 common shares, both of which are to be made upon the issuance by the TSX Venture Exchange (the “Exchange”) of the Final Exchange Bulletin (“FEB”) as well as investing \$200,000 on the property via an exploration program and on additional payment of 400,000 common shares on or before the first anniversary of the FEB (the “Transaction”).

On February 25, 2014 the Company and Mag Copper Inc. announced the acquisition of seven mining claims in Halle Township, Quebec. Pursuant to the terms of agreement Richmond and Mag will each acquire 50% interest in the claims by issuing 250,000 of their common shares each to the seller. The seller retains the right to back-in anytime for a 33 1/3 interest in the claims by reimbursing twice the exploration funds invested in these claims by Richmond/Mag.

8. Shareholders’ Equity

(i) Share capital and contributed surplus

Issued and outstanding common shares and warrants consist of the following:

	<u>Aug 31, 2014</u>	<u>May 31, 2014</u>
Shares issued and fully paid:		
Beginning of the year	28,791,188	81,509,239
Share issue	-	700,000
Reverse Split 4 to 1	-	(61,656,622)
Share issue	2,837,856	8,238,571
Shares issued and fully paid	<u>31,629,044</u>	<u>28,791,188</u>

For each class of share capital:

The number of shares authorized	Unlimited
The number of shares issued and fully paid	31,629,044
The number of shares issued but not fully paid	-
Par value per share, or that the shares have no par value	no par value

During the current period the Company completed the following shares issuances:

- 1) 2,837,856 common shares issued for settlement of debt of \$198,650. The Settlements primarily represent payments for consulting fees but also settle various other liabilities including directors' fees, a severance payment, and loan interest.

(ii) Stock Options

The Company’s Stock Option Plan (“the “Plan”) provides for the issuance of a maximum of 10% of the issued and outstanding common shares at an exercise price equal or greater than the market price of the Company’s common shares on the date of the grant to directors, officers, employees and consultants to the Company. The option period for options granted under the Plan is for a maximum period of 5 years. Options granted may vest over certain time periods within the option period, which will limit the number of options that may be exercised.

Each stock option is exercisable into one common share of the Company at the price specified in the terms of the option.

Richmond Minerals Inc.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 8(ii) – Stock Options Continued

The following table summarizes information about the stock options outstanding and exercisable:

	Aug 31, 2014		May 31, 2014	
	Number of units	Weighted average exercise price	Number of units	Weighted average exercise price
Balance at beginning of period	275,000	\$0.40	1,900,000	\$0.10
Expired during the period	(175,000)	0.40	(800,000)	0.10
Reverse option split 4 to 1	-	-	(825,000)	0.10
Balance at end of period	100,000	\$0.40	275,000	\$0.40
Units exercisable at the end of the period	100,000	\$0.40	275,000	\$0.40

There were no stock options granted as at August 31, 2014 and May 31, 2014.

The following table summarizes share units outstanding at the end of period:

Exercise Price	Number of Options	Expiry Date	Weighted Average Remaining Life
\$0.40	100,000	13-Jan-15	0.37

The Company has not recognized any expense for share based payment in August 31, 2014 and May 31, 2014 Consolidated Statements of Comprehensive Income.

(iii) Warrants

The following table summarizes information about the warrants outstanding and exercisable:

	Aug 31, 2014		May 31, 2014	
	Number of units	Weighted average exercise price	Number of units	Weighted average exercise price
Balance at beginning of period	8,846,071	\$0.05	2,450,000	0.05
Issued	-	0.05	700,000	0.05
Reverse warrant split 4 to 1	-	0.20	(2,362,500)	0.20
Issued	-	0.10	8,058,571	0.10
Balance at end of period	8,846,071	\$0.12	8,846,071	\$0.12

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 8(iii) – Warrants Continued

Exercise Price	Number of Warrants	Expiry Date	Weighted Average Remaining Life
\$0.40	612,500	7-Feb-15	0.44
\$0.20	175,000	24-Apr-15	0.65
\$0.10	2,170,000	22-Jul-15	0.89
\$0.10	5,788,571	2-Apr-19	4.59
\$0.15	100,000	2-Apr-16	1.59

The company also has the following finder's fee units outstanding at August 31, 2014:

Exercise Price	Number of Warrants	Expiry Date	Weighted Average Remaining Life
\$0.07	104,250	2-Apr-16	1.59

Each finder's fee unit is exercisable at \$0.07 per unit into one common share and one common share purchase warrant with each warrant exercisable at a price of \$0.10 expiring April 2, 2019.

Effective December 9, 2013, pursuant to a special resolution passed by shareholders on June 7, 2013, the Company has consolidated its capital on a (4) four old for (1) one new basis.

9. Financial Instruments

Financial Instruments details can be summarized as follows:

	Balance as at	
	Aug 31, 2014	May 31, 2014
Financial assets		
Loans and receivables		
Interest and sundry receivables	\$12,810	\$37,996
	<u>\$12,810</u>	<u>\$37,996</u>
Fair Value Through Profit or Loss		
Cash and cash equivalents	\$152,819	\$262,485
Cash held for future exploration	25,254	88,561
Marketable Securities	88,813	93,600
	<u>\$266,886</u>	<u>\$444,646</u>

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 9 – Financial Instruments Continued

	Balance as at	
	Aug 31, 2014	May 31, 2014
Financial liabilities		
Financial liabilities measured at amortized cost		
Accounts payable and accrued liabilities	\$103,683	\$412,840
Loan Payable	71,000	71,000
Deferred tax liability	7,576	26,568
	\$182,259	\$510,409

Cash and cash equivalents are comprised of bank deposits.

The Company's interest income on short-term investment carried at amortized cost is presented on the Statement of Comprehensive Loss in the Interest Income line.

The Company's marketable securities consist of the following financial instruments at August 31, 2014:

	# shares	Fair Value
Fort Chimo Mining/Mag Copper	40,000	\$600
Bonavista Energy Corp	5,000	74,100
Probe Mines Ltd	4,900	11,613
Vendome Resources	5,000	200
Surrey Capital	115,000	2,300
		\$88,813

10. Financial Instruments Risk Management

The Company thoroughly examines the various financial instrument risks to which it is exposed and assesses the impact and likelihood of those risks. These risks may include credit risk, liquidity risk, market risk and interest rate risk.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its obligations. The Company is not exposed to credit risk due to the nature of the collectible accounts.

On August 31, 2014 and May 31, 2014, the Company does not have any allowance for doubtful accounts.

Interest rate sensitivity

Management actively monitors the Company's exposure to credit risk under its financial instruments, including with respect to amounts receivable. The Company considers the risk of loss for its amounts receivable to be remote and significantly mitigated due to the financial strength of the party from whom the receivables are due - the Canadian government for harmonized sales tax ("HST") refunds receivable.

Liquidity risk

Liquidity risk is the risk that the Company cannot meet its financial obligations associated with financial liabilities in full. The primary source of liquidity is net operating income, which is used to finance working capital and capital expenditure requirements, and to meet the Company's financial obligations associated with financial liabilities. Given the Company's present financial situation liquidity risk at the Company is considered high.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 10 – Liquidity risk Continued

Additional sources of liquidity are debt and equity financing, which is used to fund additional operating and other expenses and retire debt obligations at their maturity.

The Company's approach to managing liquidity risk is to ensure that it will have sufficient cash to meet liabilities when due. All of the Company's financial liabilities have contractual maturities of less than one year and are subject to normal trade terms. The Company's ability to continue operations and fund its business is dependent on management's ability to secure additional debt or equity financing. It is anticipated that the Company will continue to rely on debt or equity financing to meet its ongoing working capital requirements.

Market risk

The Company's marketable securities are classified as fair value through profit or loss, and are subject to changes in the market prices. They are recorded at fair value in the Company's financial statements, based on the closing market value at the end of the period for each security included. The Company's exposure to market risk is not considered to be material.

The Company has no significant exposure at August 31, 2014 and May 31, 2014 to interest rate risk through its financial instruments as there are no significant balances payable, which accrue interest.

11. Related Party Transactions

The Company's related parties include its subsidiaries, joint venture, key management and their close family members, and others as described below. Unless otherwise stated, none of the transactions incorporate special terms and conditions and no guarantees were given or received. Outstanding balances are usually settled in cash.

The Company had the following balances with its related parties:

	Aug 31, 2014		May 31, 2014	
	Key Management Personnel	JV and other	Key Management Personnel	JV and other
<u>Transactions</u>				
Administrative fees (i)	\$3,500	-	\$8,354	-
Management fees and termination benefits	8,800	-	171,000	-
Loan and interest payable (ii)	72,420	-	76,600	-
Rent expense (iii)	-	-	-	2,624
<u>Balances</u>				
Payable/ (Prepaid)	118,905	-	177,624	(4,974)
Payable to a former director or officer	-	-	-	-

Amounts due from and to the related parties, are a result of transactions with entities controlled by shareholders, officers or directors of the Company and joint ventures. These amounts are non-interest bearing, unsecured and not subject to specific terms of repayment unless stated.

- (i) For the quarter ended August 31, 2014 and the year ended May 31, 2014 the Company expensed \$3,500 and \$8,354 respectively to CFO Support for secretarial, administrative and bookkeeping services. The CFO of the Company, Victoria Kuklina, CPA is a principal of CFO Support.

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

Note 11 – Related Party Transactions Continued

- (ii) The loan payable of \$71,000 at quarter end is due to a member of key management personnel and is included in the payable line above. The loan is short-term and is interest-bearing at 12% per annum and is unsecured. Included in the current quarter's interest expense is \$1,420 related to this loan and is included in interest and bank charges on the Statement of Comprehensive Loss.
- (iii) Rent expense and amounts due from the related parties, are a result of transactions with entities controlled by shareholders, officers or directors of the Company.

The remuneration of directors and other members of key management personnel were as follows:

	Aug 31, 2014	May 31, 2014
Short-term employee benefits	\$8,800	\$171,000
Termination benefits	0	8,750
	\$8,800	\$179,750

In accordance with IAS 24, key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company directly or indirectly, including any directors (executive and non-executive) of the Company.

12. Capital Management

The Company considers its capital structure to consist of share capital, contributed surplus, options and warrants. The Company manages its capital structure and makes adjustments to it, in order to have the funds available to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the quarter ended August 31, 2014. Neither the Company nor its subsidiaries are subject to externally imposed capital requirements.

The Company's capital for the reporting periods is summarized as follows:

	Aug 31, 2014	May 31, 2014
Cash	\$152,819	\$262,485
Cash held for future exploration	25,254	88,561
Marketable Securities	88,813	93,600
Common Shares	15,482,603	15,283,953
Contributed surplus	610,660	610,660
Deficit	(15,661,515)	(15,642,569)
	\$698,634	\$696,690

Notes to the Unaudited Condensed Consolidated Interim Financial Statements

13. Contingent Liability

On January 21, 2013, litigation began pertaining to the Certificates of Pending Proceeding in which Richmond is a defendant. The Plaintiff's action is a tracing claim alleging the diversion of the Plaintiff's funds from an unrelated exploration program to fund work on the Swayze Property. The plaintiff seeks title to the Swayze Property and financial compensation from Richmond. On February 3, 2014 a Judgement has been reached. The Ontario Superior Court has dismissed the plaintiff's claim of an alleged interest in the Swayze Mining Claims. Accordingly, the Certificates of Pending Proceedings and Certificates of Interest registered by the plaintiff against title to the

Swayze Mining Claims are vacated and discharged from title to those Mining claims. On February 28, 2014 the Plaintiff in the Swayze Property litigation filed an appeal asking that the Judgement announced in favour of the Company be set aside and a new Judgement be granted in favour of the Plaintiffs. The appeal is pending.

Management is of the opinion that the grounds for the appeal are without merit and will vigorously contest them. The Company plans on moving forward with its exploration plans.

14. Post-reporting Date Events

- i) On September 8th, 2014 the Company announced that it has granted 2,812,500 stock options to directors, officers and arm's length consultants. The options are exercisable at \$0.10 per share, vest immediately, and expire in five years.
- ii) On September 23rd, 2014 ARC Corporation (listed as Streetwear Corporation) listed its shares on the CNSX. Pursuant to the Company's agreement with ARC, the Company was issued 2,000,000 shares of Streetwear Corporation and \$5,000 for transferring the rights of the Lac Colombet property in Quebec to ARC.
